

MA LAGUU QORAY OPIOID?

Dejiso qorshe aad isaga dhaafto.

3 MILYAN OO QOF OO MAREYKAN ah ayaa la dhibaatoonaya xanuunka isticmaalka opioid.

Opioid-yada la isu qoro waxay noqon karaan kuwo waxtar u leh xanuun baabi'inta, gaar ahaan qaliinka kadib ama dhaawac. Balse haddii ay bilaabaan inay noloshaada si xun u saameeyaan beddelki xanuun baabi'inta, waxay muujin kartaa xanuunka isticmaalka opioid (OUD). CDC waxay OUD ku qeexdaa ku guuldarreysiga inaad iska yareyso isticmaalka opioid ama inaad u isticmaasho si xun. Had iyo jeer xilkas noqo oo u isticmaal opioids-ka sida laguugu qoro.

OPIOIDS-KA INTA BADAN LA ISU QORO:

- Hydrocodone (Vicodin®)
- Oxycodone (OxyContin®, Percocet®)
- Oxymorphone (Opana®)
- Morphine (Kadian®, Avinza®)
- Codeine
- Hydromorphone
- Tapentadol
- Methadone
